# IX Censo Nacional de Población y Vivienda 2010

## Características Educativas

Ministerio de Economía, Planificación y Desarrollo - OFICINA NACIONAL DE ESTADÍSTICA - Santo Domingo

# IX CENSO NACIONAL DE POBLACIÓN Y VIVIENDA

# 2010

## Características Educativas

## VOLUMEN IV

Santo Domingo  
Diciembre del 2012

# Créditos

## Personal directivo del Censo

**Pablo Tactuk:** Director Nacional de la Oficina Nacional de Estadística

**Francisco Cáceres Ureña:** Gerente de Censos y Encuestas

**Mildred Martínez Mejía:** Encargada del Departamento de Censos

## Asesores internacionales

**Walter Caveró Dhaga:** Consultor Internacional Experto en Censos

**Carlos Ellis:** Consultor Internacional en Procesamiento de Datos

**Freddy Ochoa:** Consultor Internacional en Procesamiento de Datos

## Diseño conceptual y metodológico

**Francisco Cáceres Ureña:** Director del Proyecto

**Walter Caveró Dhaga:** Consultor Internacional Experto en Censos

**Mildred Martínez Mejía:** Subdirectora del Proyecto

**Shelila Ruiz Silverio:** Encargada Conceptual del Proyecto

**Willy Ney Otáñez:** Analista Metodológico

**Marinelva Mateo:** Auxiliar Estadístico

**María Rita Parra:** Encargada de Logística de Materiales

## Procesamiento de datos

**Danilo Duarte:** Coordinador del Procesamiento

## Segmentación censal

**Juan Arias:** Encargado del Departamento de Cartografía

## Elaboración del informe

Francisco Cáceres

Mildred Martínez Mejía

Walter Caveró Dhaga

Shelila Ruiz Silverio

Willy Otáñez

Belkis López Lazala

Braudilia García Vicente

## Apoyo institucional

**Victor Valdez:** Encargado del Departamento Administrativo y Financiero

**Claudio Peri:** Encargado de Planificación

## Apoyo internacional

Gobierno de la República de China (Taiwán)

Banco Interamericano de Desarrollo (BID)

Fondo de Población de las Naciones Unidas (UNFPA)

Programa de las Naciones Unidas para el Desarrollo (PNUD)

El Fondo de Naciones Unidas para la Infancia (UNICEF)

## Apoyo editorial

**Sandra Checo:** Encargada interina del Departamento de Comunicaciones

**Raysa Hernández:** Encargada interina de la División de Publicaciones

**Carmen C. Cabanes:** Diagramación

**Jessica Hurtado:** Diseño de portada

**Foto de portada:** Archivo DICOM, Centro de Información Gubernamental

**Yolanda Soler:** Corrección de estilo

# Ficha técnica

|------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Nombre de la publicación                             | Volumen IV : Características Educativas                                                                                                                                                                                                                                                                                                                                  |
| Objetivo general del producto                        | Producir información, útil e internacionalmente comparable, sobre las principales características educativas de la población dominicana, para la toma de decisiones y proporcionar indicadores desagregados por distintos dominios geográficos sobre la cobertura escolar.                                                                                               |
| Descripción del producto                             | Informe general de los resultados del IX Censo Nacional de Población y Vivienda 2010, con información de las características educativas de las personas.                                                                                                                                                                                                                 |
| Año de inicio del producto estadístico               | 2007                                                                                                                                                                                                                                                                                                                                                                     |
| Tipo de levantamiento                                | Censo de derecho, es decir, se empadronó a todas las personas residentes habituales de los hogares, independientemente del lugar donde se encontraran en el momento del empadronamiento.                                                                                                                                                                                 |
| Periodicidad del levantamiento de la información     | Decenal                                                                                                                                                                                                                                                                                                                                                                  |
| Cobertura geográfica                                 | Todo el territorio de la República Dominicana y sus aguas jurisdiccionales.                                                                                                                                                                                                                                                                                              |
| Fecha de publicación                                 | Diciembre 2012                                                                                                                                                                                                                                                                                                                                                           |

# Presentación

La Oficina Nacional de Estadística (ONE) pone a disposición de los usuarios y público en general los resultados definitivos del **IX Censo Nacional de Población y Vivienda 2010**, relativos a las características educativas de la población. Este operativo censal se desarrolló durante siete días consecutivos, desde 1 al 7 de diciembre del 2010, en todo el territorio de la República Dominicana, incluyendo sus aguas jurisdiccionales, con la participación de toda la sociedad dominicana.

Con este levantamiento se dio cumplimiento a lo establecido en la Ley No. 5096 sobre Estadística y Censos Nacionales y lo dispuesto en el Decreto del Poder Ejecutivo No. 81-10, de fecha 13 de febrero del año 2010, que declaró al **IX Censo Nacional de Población y Vivienda 2010** como proyecto de prioridad e interés nacional a realizarse en el año 2010.

El censo de población y vivienda es la principal operación estadística que desarrolla el país, razón por la cual se torna en una fuente de información de trascendental importancia a nivel nacional y local. En consecuencia, la información proporcionada por el censo se constituye en un insumo de relevancia para la orientación, implementación y evaluación de las políticas públicas, así como para el desarrollo y evaluación de intervenciones en el ámbito civil. En forma adicional, los datos censales son de gran utilidad en la toma de decisiones en el campo del comercio y la industria, sin dejar de lado su importancia como fuente para la producción de conocimiento.

El presente documento, denominado Volumen IV: Características Educativas, con datos acerca de la población en función de sus principales atributos relativos a la escolaridad, forma parte de un programa de difusión de los resultados censales iniciado en el mes de marzo del 2011, con la puesta en circulación del primer informe de resultados censales, el cual contiene las cifras preliminares sobre la población y las viviendas del país. Posteriormente, el 24 de mayo del 2012 se puso en circulación el Informe Básico, contentivo de información acerca de la población y las viviendas, desagregada a nivel de región, provincia, municipio y distrito municipal. Con posterioridad a este documento se publicó el Volumen I, contentivo del Informe General, el cual contiene datos sobre las principales características de las personas, los hogares y las viviendas; el Volumen II, con datos acerca de las Características de la Vivienda y el Hogar; y el Volumen III, en el cual se presentan datos acerca de las Características Demográficas Básicas de la Población.

En forma adicional al Volumen IV se contempla la publicación de otros tres documentos en los cuales se exhiben datos acerca de otros aspectos estudiados en el **IX Censo Nacional de Población y Vivienda 2010**. El Volumen V contendrá información acerca de las Características Económicas; el Volumen VI estará destinado a la presentación de información sobre Migración, Fecundidad y Mortalidad; mientras que en el Volumen VII se expondrán datos relativos a algunos atributos de la comunidad.

Como forma de garantizar el acceso a la información, por parte de la mayor cantidad posible de usuarios, además de las publicaciones impresas se contempla la divulgación de los resultados censales definitivos mediante medios electrónicos.

La Oficina Nacional de Estadística, al presentar estos resultados relativos a las características educativas de la población, hace propicia la ocasión para expresar su agradecimiento a la población dominicana en general, por su apoyo invaluable para que la gran jornada que significó el **IX Censo Nacional de Población y Vivienda 2010** alcanzara sus objetivos, así como a los diferentes estamentos de la sociedad que con su participación nos permitieron cumplir con nuestra misión.

**Pablo Tactuk**  
Director Nacional

# Introducción

En la República Dominicana existen experiencias sobre la cuantificación de la población que datan del siglo XVII, cuando el gobernador Osorio ordenó el conteo de la población residente en los poblados de la costa norte. Sin embargo, el empadronamiento de la población bajo el concepto que actualmente se tiene de los censos se inició en el año 1920. A partir de ese año se han levantado nueve censos de población y vivienda, razón por la cual, al último de esta serie se le denominó **IX Censo Nacional de Población y Vivienda 2010**.

El inicio de los trabajos inherentes al **IX Censo Nacional de Población y Vivienda 2010** se remonta al mes de octubre del 2007, momento en el cual se delineó un esquema contentivo de las actividades preparatorias de esta jornada, acompañadas del correspondiente presupuesto. Acto seguido se comenzó a definir los aspectos conceptuales y metodológicos del censo, así como la elaboración de los instrumentos a utilizar con miras a la recolección de los datos.

La etapa del empadronamiento se desarrolló durante el período comprendido entre los días 1 y 7 de diciembre del 2010. El rol protagónico de este operativo recayó sobre un numeroso grupo de personas, constituido por unos 39,000 Empadronadores, coordinados por 10,300 Supervisores, quienes a su vez estuvieron dirigidos por 2,700 Encargados de Polígono. En el territorio, estos trabajos fueron dirigidos por 352 Encargados Municipales Censales, quienes dependían en forma directa de 48 Encargados Provinciales Censales.

En este operativo estadístico, a través de la boleta censal, se obtuvieron informaciones acerca de las características educativas, las cuales, entre otras formas de divulgación, se entregarán a los usuarios mediante el presente informe, el cual está estructurado en cinco capítulos. El primer capítulo presenta información acerca de los aspectos geográficos de la República Dominicana, la división político-administrativa del país y un esbozo de la historia de los censos nacionales; en el segundo capítulo se muestran los resultados definitivos de los atributos educativos investigados, desagregados a nivel de región geográfica, provincia, municipio y distrito municipal.

En el tercer capítulo se describen los aspectos operacionales y metodológicos que sustentaron el operativo censal, en el cuarto capítulo se describen los conceptos básicos utilizados; mientras que en el quinto capítulo se presenta una breve descripción de la forma en que se difundirán los datos censales.

Finalmente, se presentan dos anexos. En el anexo I se muestra la boleta censal, mientras que en el anexo II se presenta una lista de todas las personas que participaron en el **IX Censo Nacional de Población y Vivienda 2010**.

# 1. Generalidades

## 1.1 Aspectos geográficos

La información del IX Censo Nacional de Población y Vivienda 2010, como la de cualquier otro estudio de esta naturaleza, está referida a los espacios geográficos donde habitan las personas residentes en el país. En consecuencia, es importante que los usuarios de los datos conozcan algunos elementos básicos del contexto territorial al cual pertenecen. En este caso se hará referencia a la localización geográfica de la República Dominicana, por la utilidad que podría tener para aquellos usuarios de ultramar sin muchos conocimientos acerca del país, y a la división político-administrativa, dado que gran parte de los datos censales se presentan en forma desagregada en función de las unidades territoriales.

### 1.1.1 Localización de la República Dominicana

La isla de Santo Domingo forma parte del archipiélago de las Antillas Mayores y es la segunda en extensión territorial después de Cuba. Se localiza en el hemisferio norte y al sur del trópico de Cáncer. Sus coordenadas geográficas son: 17° 36' y 19° 58' latitud norte y 68° 19' y 72° 01' longitud oeste.

Llamada por los aborígenes Quisqueya, fue nombrada como la Española o la Hispaniola por los españoles a su llegada. Se encuentra dividida en dos estados independientes: República Dominicana en la parte oriental y la República de Haití en la parte occidental.

La extensión territorial de la isla es de unos 77,914 kilómetros cuadrados, de los cuales, 48,310.97 km<sup>2</sup> corresponden al área principal del territorio de la República Dominicana, incluidos los 265 km<sup>2</sup> del área del lago Enriquillo.

La República Dominicana limita al norte con el océano Atlántico que la separa de las islas Caicos y Turcas; al este con el canal de La Mona que la separa de Puerto Rico; al sur con el mar Caribe o de las Antillas; y al oeste limita con la República de Haití.

### 1.1.2 División político-administrativa

La República Dominicana se encuentra dividida en un Distrito Nacional y 31 provincias como divisiones político-administrativas mayores. A su vez, las provincias se dividen en 155 municipios y 231 distritos municipales. A un nivel de mayor agregación geográfica, el país se encuentra dividido en 10 regiones administrativas creadas a partir del Decreto Presidencial No.710-04 del 30 de junio de 2004, las cuales están nucleadas en tres macrorregiones: Cibao, constituida por las regiones: Cibao Norte, Cibao Sur, Cibao Nordeste y Cibao Noroeste; la Suroeste, formada por las regiones: Valdesia, Enriquillo y El Valle; y la Sureste, compuesta por las regiones: Yuma, Higuamo y Ozama o Metropolitana.

La República Dominicana tiene forma de triángulo, cuya base es la línea fronteriza con la República de Haití. La irregularidad de sus lados le da un perímetro de 1,963 km. La línea costera se extiende unos 1,576 km y la línea fronteriza con la República de Haití 388 km.

Sus dimensiones son: 390 km de longitud, desde cabo Engaño, en la provincia La Altagracia, hasta el paraje Las Lajas en la provincia Independencia y 265 km de ancho, desde cabo Isabela, en la provincia de Puerto Plata hasta el cabo Beata, en la provincia de Pedernales.

## 1.2 Antecedentes censales

Tradicionalmente en todos los censos realizados en la República Dominicana se ha recolectado información sobre las características educativas, siendo alfabetización, asistencia escolar y nivel de instrucción los atributos más investigados. En el Primer Censo Nacional de Población, realizado en 1920, se obtuvo información sobre alfabetismo; mientras que en el censo levantado en 1935, además de alfabetismo, se indagó sobre asistencia escolar. En el Tercer Censo Nacional de Población realizado en 1950 se obtuvo información sobre alfabetismo, último año escolar aprobado, asistencia escolar y nivel de instrucción.

En el Cuarto Censo Nacional de Población, levantado en 1960, se recabó información sobre alfabetismo, último año aprobado y asistencia escolar. De igual forma, en el Quinto Censo Nacional de Población, hecho en el año 1970, fueron investigadas las mismas características educativas incluidas en el censo anterior, las cuales estaban referidas a los miembros del hogar de 5 años y más de edad.

El Sexto Censo Nacional de Población y Vivienda de 1981 marcó la diferencia con relación a los anteriores, ya que, además de alfabetismo, asistencia escolar y nivel aprobado, se obtuvo información sobre título universitario. En forma adicional, a las personas de 10 años y más se les preguntó acerca de la asistencia a centros de educación no formal, de manera específica se les indagó sobre la asistencia a centros de enseñanza vocacional, técnica o comercial.

De forma similar a los seis censos anteriores, en el Séptimo Censo Nacional de Población y Vivienda, realizado en el año 1993, se obtuvo información sobre alfabetismo, asistencia escolar y nivel de instrucción. Mientras tanto, en el Octavo Censo Nacional de Población y Vivienda del 2002 se indagó acerca del analfabetismo, asistencia escolar, nivel de instrucción, carrera básica, especialidad, maestría o doctorado, y en el caso de aquellas personas que habían abandonado los estudios se preguntó acerca de los motivos para hacerlo.

En los censos de 1970 y 1981, para la recolección de la información sobre los atributos educativos, se investigó la población de 5 años y más, mientras que para los censos levantados en el 1993 y el 2002, la población objetivo fue la de 3 años y más.

## 2. Resultados censales

Con el propósito de facilitar el acceso de los usuarios, a los resultados del IX Censo Nacional de Población y Vivienda 2010, la Oficina Nacional de Estadística ha diseñado la estrategia de divulgación que contempla la elaboración de productos de difusión impresa y digital. Este documento representa el cuarto volumen a publicar impreso, compendiando información acerca de las características educativas de la población. El segundo componente de disseminación de resultados consiste en la utilización de Internet, la preparación de CD, así como la forma impresa para la publicación de volúmenes temáticos y regionales con información desagregada.

Cuadro 1

REPÚBLICA DOMINICANA: Población de 3 años y más, por zona de residencia y sexo, según región, provincia, municipio, distrito municipal y nivel de instrucción

| Región, provincia, municipio, distrito municipal<br>y nivel de instrucción | Población de 3 años y más |                  |                  |                  |                  |                  |                  |                  |                  |       |
